

BMS Integrated Services Inc. is B.C.'s premier systems integrator focusing on the design and deployment of network infrastructure and IP-enabled security and surveillance solutions. With a head office in Vancouver and branch offices in Victoria and Kelowna, BMS responds to your physical security needs by providing open platform IP based security solutions to protect your people, structures, and assets.

With a long history in network integration, BMS delivers proven security technologies including access control, IP video surveillance, video management systems, perimeter intrusion and alarm monitoring to deliver seamlessly integrated solutions which optimize open I.T. and networking standards.

Our strength lies not only in our ability to design and deploy customized, fully integrated solutions, but more importantly in our attention to detail and developing our relationship with our customers. Our goal is to become an extension of our client's team to ensure the successful completion of any project.

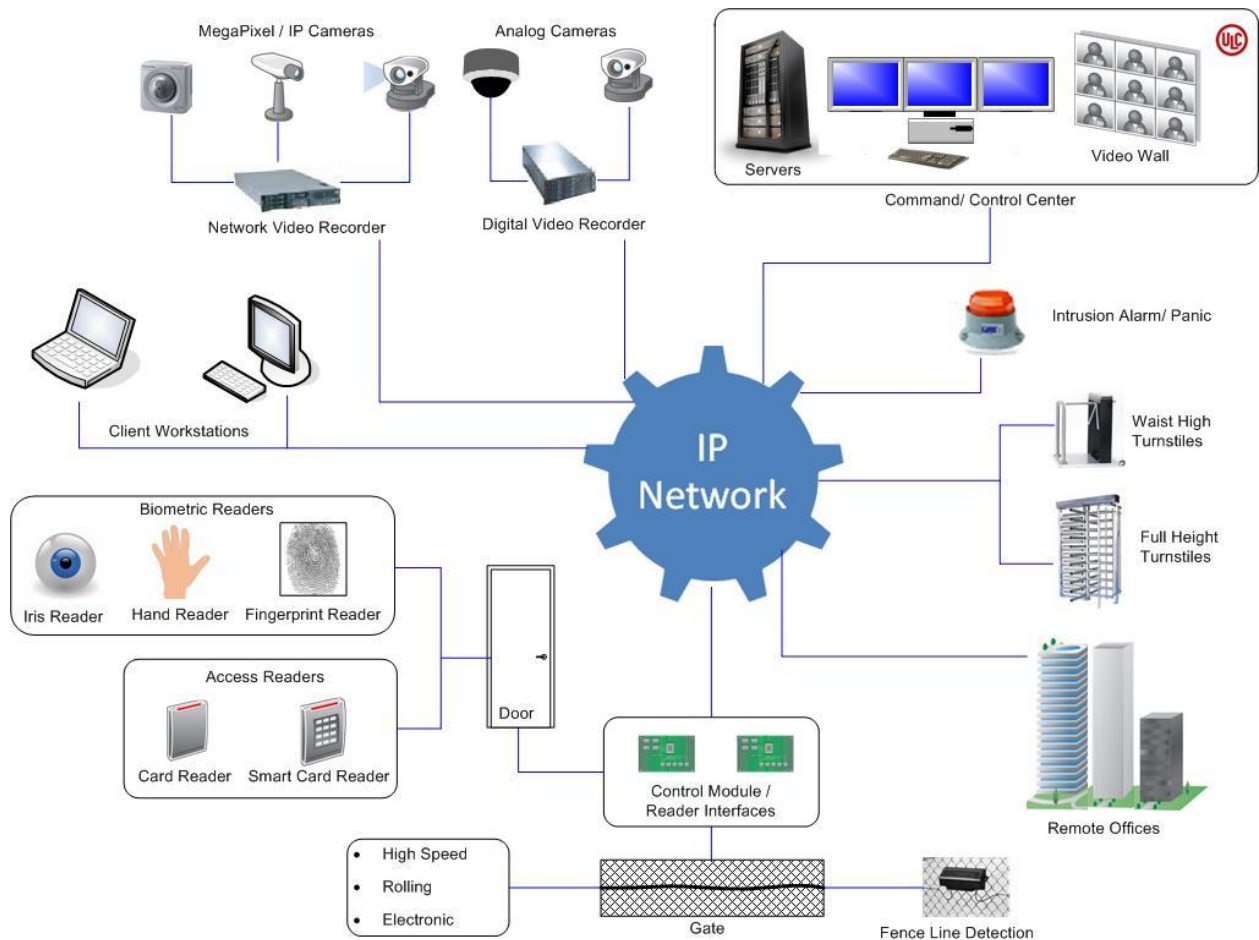

OUR SERVICES
